Co-Founders, Raksha & Kahkasha

A Passionate Journey by Two Sisters

Sisonat is the heartfelt creation of two visionary sisters, Raksha and Kahkasha. United by their shared love for nature and a deep-rooted belief in the power of herbal remedies, they embarked on a mission to create a brand that would bring the beauty of nature into the lives of others. With their combined expertise and unwavering commitment to quality, "Sisonat" was born, offering a range of natural and herbal cosmetics that celebrate the harmony between beauty, health, and the environment.

Growing up surrounded by lush gardens and the wisdom of their ancestors, the two sisters developed a profound appreciation for the healing properties of plants and herbs. Inspired by their grandfather's natural remedies and the knowledge passed down through generations, they recognized the transformative potential of these botanical wonders.

Fuelled by their passion, the sisters embarked on a remarkable journey, in research and development and sustainable practices in the field of herbal remedies. They combined their expertise, drawing from ancient wisdom and modern innovations, to create a brand that reflects their shared vision: to provide people with natural and effective skincare solutions that nourish the body, mind, and soul.

Brand Philosophy:

At the core of Siso lies a deep respect for nature and a commitment to harnessing its gifts responsibly. The sisters believe in the power of botanical ingredients to revitalize and restore the skin, while also honoring the delicate balance of the environment. Every product is meticulously formulated, blending science and nature to create effective and gentle formulations that deliver visible results.
